

Natalia Méndez Ruiz-Tagle

She is a geographer with a major in environment from the Pontificia Universidad Católica del Perú and holds a Master of Science (MSc) in Global Wildlife Health and Conservation from the University of Bristol in England.

Natalia Méndez Ruiz-Tagle is a senior consultant for the Amazon Cooperation Treaty Organization on illegal wildlife trafficking. Her experience includes the systematization and analysis of information on illegal trade of CITES species in the Amazon, which includes its management in digital platforms. She also has expertise in the planning, development and management of wildlife rescue centers in Brazil and England. At present, she is part of the technical support team of the “Rapid Assessment of Biodiversity and Ecosystem Services in the Amazon Basin/Region”. This document produced by 118 experts in the field complies with the conceptual and methodological framework of the Intergovernmental Science-Policy Platform on Biodiversity and Ecosystem Services (IPBES).

As part of American and German consulting firms such as MWH Global and Fichtner in Peru, Natalia has accumulated experience in different environmental and social development issues in mining and solid waste projects. She is a geographer with a specialization in environment from the *Pontificia Universidad Católica del Perú* and holds a Master of Science (MSc) in Global Wildlife Health and Conservation from the University of Bristol in England. She also holds a diploma on environmental and social impact project management.
